Subject Index

AIDS associated cryptococcosis—epidemiology of, 25
Antibiobodies, 235
Antibodies—antibiotic-like, 235
  anti-idiotypic, 235
Antibody-bearing liposomal amphotericin B in experimental systemic candidosis, 419
Antifungal activity of polymorphonuclear neutrophils against *H. capsulatum*, 133
Antigens of diagnostic value in *P. brasiliensis*, 31, 243, 331
Art—dermatophytes in, 1
Arthritis in rats due to *Candida*, 179
Aspartate proteinase—sequence of *C. albicans* gene for, 129
Aspergilloma—DNA fingerprinting of *A. fumigatus* from, 339
Aspergillus flavus elastinolytic proteinase, 407
Aspergillus fumigatus—DNA fingerprinting of, 339
  HPr-like protein gene in, 381
  immunolocalisation of mycelial antigens of, 73
Authentication of *C. albicans* reference strains, 255

Basidiobolus ranarum—infection in cultured frogs, 215
  in zygomycosis, 215
Blastomyces dermatitidis—relationship between colony phenotype and nuclei number, 165
Botryomyces caespitosus—in phaeohyphomycosis, 9
Budding process in *M. pachydermatis*—ultrastructure of, 387
Burundi—cryptococcosis in, 25

Candida albicans—antigenic characterisation of mannoproteins of, 361
  aspartate proteinase gene sequence, 129
  biochemical characterisation of mannoproteins of, 361
  characterisation of lysophosphorylase-transacylase from, 193
  chitin assay for, 15
  effect of saperconazole on morphology of, 293
  germ tube cell wall antigens of, 269
  induction of interleukin-l by, 157
  induction of tumour necrosis factor by, 157
  mannan assay for, 83, 305
  mannoproteins of, 361
  numerical analysis of, 105
  phenotypes of sterol mutants of, 53
  phenotypic variation of strains of, 145
  purification of lysophospholipase-transacylase from, 193
  reference strain authentication, 255
  succinate utilization by sterol mutants of, 117
Candida arthritis in rats, 179

Candida haemulonii in the *USA*, 335
Candida mannan—association with signs and symptoms of vaginal candidosis, 305
Cats—dermatophytosis in, 285
  fungal flora of haircoat of, 285
  P. insidiosum infection in, 39
Central African Republic—pityriasis versicolor in, 323
Chitin assay for *C. albicans*, 15
Chromoblastomycosis–itraconazole in, 313
  malignant transformation in, 313
Cilofungin—suseptibility test for, 93
Colonization with *T. beigelii*, 99
Concurrent *H. capsulatum* and *M. tuberculosis* infection, 343
Cryptococcal phenoloxidase—temperature regulation of, 121
Cryptococcosis in AIDS—epidemiology of, 25
Cryptococcus neoformans—inhibition of I-A expression by T-suppressor cells induced by, 125

Dermatophytes in art, 1
Dermatophyte density—effect on ringworm pathology, 279
Dermatophyte species—effect on ringworm pathology, 279
Dermatophytosis in cats, 285
Dexamethasone treatment of experimental *F. solani* keratitis, 395
Diagnostic antigens in *P. brasiliensis*, 243
Disk diffusion test for cilofungin susceptibility, 93
DNA fingerprinting of *A. fumigatus*, 339
Dog—eumycetoma in, 211

Elastinolytic proteinase of *A. flavus*, 407
Endocarditis due to *T. lanuginosus*, 205
Epidemiology of cryptococcosis, 25
Eumycetoma in a dog, 211
Exoantigen test for *E. spinifera*, 273
Exophiala spinifera—exoantigen test for, 273
Experimental *Candida* arthritis in rats, 179
Experimental *F. solani* keratitis—dexamethasone treatment of, 395
Experimental systemic candidosis—antibody-bearing liposomal amphotericin B in, 419

Fungal flora of haircoat of cats, 285
Fusarium solani, in experimental keratitis—dexamethasone treatment of, 395
  invasion by, 395
  survival of, 395
Frogs—*B. ranarum* in, 215
  zygomycosis in, 215

Gene sequence of *C. albicans* aspartate proteinase, 129
Germ tube cell wall antigens of *C. albicans*, 269

Histoplasma capsulatum—antifungal activity of polymorphonuclear neutrophils against, 133
  concurrent infection with *M. tuberculosis*, 343
HPr-like protein gene in *A. fumigatus*, 381

I-A expression inhibition by *C. neoformans* induced T-suppressor cells, 125
Immunolocalisation of *A. fumigatus* mycelial antigens, 73
Interleukin-l production induced by *C. albicans,* 157
Intrahyphal hyphae in *L. theobromae* keratitis, 263
Invasion by *F. solani* in experimental keratitis, 395
Itraconazole in chromoblastomycosis, 313

Keratitis—*A. oligospora* in, 349
L. theobromae in, 263

Lasidiplodia theobromae—intrahyphal hyphae in, 263
keratitis due to, 263
Liposomal amphotericin B bearing antibodies in experimental systemic candidosis, 419
Lysophospholipase–transacylase from *C. albicans,* 193

Madurella mycetomatis in a dog, 211
Malassezia pachydermatis budding process—ultrastructure of, 387
Malignant transformation in chromoblastomycosis, 313
Mannan assay for *C. albicans,* 83, 305
Mannan in vaginal candidosis, 305
Mannoproteins of *C. albicans*—antigenic characterisation of, 361
biochemical characterisation of, 361
Mode of action of tolnaftate, 45
Microsporum—polyamine biosynthesis inhibitors in, 63
Microsporum gypseum—tolnaftate action on, 45
Mycobacterium tuberculosis concurrent infection with *H. capsulatum,* 343

Natural killer cells in paracoccidioidomycosis, 373
Nuclei number in *B. dermatitidis*—relationship to phenotype, 165
Numerical analysis of *C. albicans,* 105

Ochroconis gallopavum in phaeohyphomycosis, 317

Paracoccidioides brasiliensis—diagnostic antigens of, 31, 243, 331
43 kDa glycoprotein of, 57
Paracoccidioidomycosis—natural killer cells in, 373
Phaeohyphomycosis—*B. caespitosus* in, 9
O. gallopavum in, 317
Phenoloxidase—temperature regulation in cryptococcus, 121
Phenotype of *B. dermatitidis*—relationship to nuclei number, 165
Phenotypes of *C. albicans* sterol mutants, 53
Phenotypic variation—in *B. dermatitidis,* 165
of *C. albicans* strains, 145
Phospholipases—characterization of from *C. albicans,* 193
purification of from *C. albicans,* 193
Pithium insidiosum in a cat, 39
Pityriasis versicolor in Central African Republic, 323
Pityrosporum ovale—effect of saperconazole on morphology of, 293

Polyamine biosynthesis inhibitors in—*Microsporum,* 63
Trichophyton, 63
Polymorphonuclear neutrophil activity against *H. capsulatum,* 133
Preservation of yeasts, 413
Pseudo-cleistothecia ultrastructure in *T. mentagrophytes,* 225
Purification of *P. brasiliensis* 43kDa glycoprotein, 57

Rats—experimental *Candida* arthritis in, 179
Reference strain authentication in *C. albicans,* 255
Ringworm pathology—effect of dermatophyte density on, 279
effect of dermatophyte species on, 279

Sabourauds agar, 355
Saperconazole, on morphology of—C. *albicans,* 293
P. ovale, 293
T. rubrum, 293
Sterol mutants of *C. albicans*—deficient succinate utilization by, 117
phenotypes of, 53
Succinate utilization by *C. albicans* sterol mutants, 117
Survival of *F. solani* in experimental keratitis, 395
Susceptibility test for cilofungin, 93

Temperature regulation of cryptococcal phenoloxidase, 121
Thermomyces lanuginosus—endocarditis due to, 205
Tolnaftate—mode of action of, 45
on *M. gypseum,* 45
Trichophyton megninii, 417
Trichophyton mentagrophytes—pseudo-cleistothecia ultrastructure in, 225
Trichophyton—polyamine biosynthesis inhibitors in, 63
Trichophyton rubrum—effect of saperconazole on morphology of, 293
Trichosporon beigelii—colonization with, 99
T-suppressor cells induced by *C. neoformans*—inhibition of I-A expression by, 125
Tumour necrosis factor induced by *C. albicans,* 157

Ultrastructure of—*M. pachydermatis* budding process, 387
T. mentagrophytes pseudo-cleistothecia, 225
USA—*C. haemulonii* in, 335

Vaginal candidosis—association of *Candida* mannan with signs and symptoms of, 305

Water—preservation of yeasts in, 413

Yeasts—preservation of, 413

Zygomycosis—due to *B. ranarum,* 215
in cultured frogs, 215
